

Certificate

DNA test for pituitary dwarfism

The DNA of the Saarloos Wolfdog

Wolfsirius Call of the Wild

Registration no. FIN21927/05

Identification code 985120006935483

was tested for the presence of the gene mutation that causes pituitary dwarfism
in this breed. The test result showed that the dog is clear of the mutation.

Utrecht, 20 April 2010

A handwritten signature in black ink, appearing to read 'P.A.J. Leegwater', written over a horizontal line.

Dr. P.A.J. Leegwater

Head Molecular Genetics
